We are faced by two facts -
one. That our house is still
full, + two. That we had to

began - I find also that if I
take them more slowly,

I have not - to waste time
on fits of exhaustion.

her breathing has been worse
of late & the her doctor says it

She is not getting younger

However, we shall talk the matter

You think. It is interesting that you two should have parted over Miss Margetts.

Yes. I think your idea of holding on to retired teachers who have done good work is capital. That they be made "Associates," free, with the liability to be called on to try & enlist - such & such a School?

Your news about Cyril is extremely interesting. especially his visit to Oxford & the two friendly musical boys. You have been able to plant him among friendly folk.

Dearest Ch.

We have your dear letter, & are very sorry to hear of your disappointment. We shall be rejoiced to have you here 9–8. Of course, we should be glad to welcome Miss Parish, & of course, Miss Parish will take up some subject – otherwise time would hang heavy for you. Short – a day! But, seriously, can't you give us more than

We want the teachers to be about among the children – not secluded into a retired study – laboratories, &c. The very nomenclature is disastrous. It 'plans' it.

—is it one or two
your proposal?

Yes indeed—I shall be
delighted to put your
quite admirable Bible-book
with the short. It is really
wanted. For the N.T. I
think consecutive reading
is the best plan. I am
sending you back the
lovely report—. By the
way, pronunciation does
matter a great deal I think.

I think I should have asked Mr. G. to write a denial in those papers, but - it - is horrid trouble a man is in his sorrow. I told him I had lots of 'documents'. (Lemlow or)
